

[BeginText]

30 Day Post General Report 1. Schedule A included a contribution from Enviro Science that was determined to be an incorporated entity. A refund will be reflected on the April Quarterly Report. 2. A contribution was received from the American Medical Association on 11/6/08 and the total was attributed to the General 2008 Election. A redesignation has been requested for the qualifying \$2500.00 intended Election. However, a refund will be reflected on the April Quarterly Report. A refund will also be reflected on the above referenced report for the American Association of Orthodontists for the contribution received on 10/31/08 for \$2500.00. The Committee makes every attempt to ensure compliance and has instituted new measures to prevent occurrences of excess contributions. 3. A \$100 contribution from Mr. Michael Anastiosion on 11/13/08 was inadvertently attributed to the General Election and will be reflected on the next reporting cycle. 4. Contributions (disbursements) to 4 candidates who are in states with late primaries were inadvertently attributed to the General and were amended to ensure compliance. It was the Committees intent to contribute to both the Primary and General Election campaigns. 6. The Chicago Board of Options Exchange PAC were inadvertently entered in separate entities causing an incorrect aggregation of contributions. The Committee has resolved the issue and have instituted additional measures through its software that will prevent such instances. 7. It appears the Committee may have filed duplicate 48 hour reports on 10/21/08. It was the Committee's intent to file one notice and only one contribution from each entity should be reflected. 8. Further identifying information have been added to clarify "purpose."
